

DUAL PROTECTION IN ONE SAFE

VIPER

BURGLARY- & FIRE-RESISTANT SAFE

KEY FEATURES

- Combined fire and burglary protection in one safe.
- EN 14450 certified by ECB+S to level S2 burglary protection.
- EN 15659 certified by ECB+S for 30-minute fire protection for documents.
- Choice of 4 sizes: from 36- to 91-litre capacity.
- All sizes fitted standard with EN 1300 certified electronic lock.
- Dual base fixing holes, supplied with two concrete anchor bolts.
- Ideal safe for protecting cash and valuable items, as well as passports, title deeds and other important documents in the home and office.
- The safe door is secured using the new revolutionary “V” bolt system. The design of the locking bolts helps maintain door integrity both when under physical attack and during a fire.
- The safe is prepared & anchoring kit is supplied to allow the Viper range to be securely base-fixed to resist unauthorised removal once installed.

PRODUCT SPECIFICATIONS

Model	External Height (mm)	External Width (mm)	External Depth (mm)	Width With Door Open 180° (B)	Depth With Door Open 90° (D)	Internal Height (mm)	Internal Width (mm)	Internal Depth (mm)	Capacity (litres)	Net Weight (kg)	No. of Shelves
M-35	450	445	390	832	803	360	355	281	36	42	1
M-50	600	445	390	832	803	510	355	281	51	53	1
M-70	800	445	390	832	803	710	355	281	71	65	2
M-90	1000	445	390	832	803	910	355	281	91	78	2

* Hinges project 20mm beyond the depth (C) given above. In standard electronic models, the overall projection increases to 40mm.

LOCKING

All sizes are available with electronic lock.

ELECTRONIC LOCK

The electronic lock can be programmed by the user with a six-digit personal code which is memorised by the lock and used each time the safe is opened. Simply rotating the keypad secures the safe door when closing it. The battery used to power the electronic lock is located in the keypad itself and can be easily changed should the existing battery run down whilst the safe is closed.

CONSTRUCTION

Both the walls and the door are constructed using an inner and outer layer of steel containing a specially formulated burglary and fire resistant material developed by Chubb safes. This material provides class-leading performance with low weights enabling installation almost anywhere.

CERTIFICATION

30P FIRE PROTECTION

The whole range has been certified by ECB•S in accordance with European Standard EN 15659 to provide 30-minute protection for documents in the event of a fire.

LEVEL S2 BURGLARY PROTECTION

All sizes have been certified by ECB•S in accordance with European Standard EN 14450 to burglary resistance Level S2.
